ROMERO, the Mexican Secretary of the Treasury, in his estimates for the present fiscal year, presented to Congress, shows that with the utmost economy the expenses of the Government will be \$21,-108,052 14, and the receipts, owing to the falling off of the revenue, through busi-ness stagnation, can not be more than \$16,000,000. When Lerdo was unseated there had been annual deficits of from \$5,000,000 to \$8,000,000 for some time. As the Mexican Government does not recognize any of the public debt of about \$400,000,000, save the six per cent inter-nal Mexican debt of \$35,000,000, the condition of the finances probably does not bother them much, but it is very probable that Mr. Romero will have to resort to some forced loans to pay \$21,000,000 with \$16,000,000.

The Russian Losses in the War. Official returns state that the Russian losses in killed and wounded during the late war amounted to 89,304 officers and men. Among these were ten generals killed and eleven wounded. One prince of the imperial family and thirty-four members of the higher nobility of Russia fell on the field of battle. Of the wounded 36,824 are perfectly recovered and 10,-000 more will, it is expected, be able to leave the hospitals during the next few weeks; 121 men were prisoners in the hands of the Turks when the armistice was concluded. The proportion of killed and wounded to the total number engaged was very large; one out of every six men who went into action being either injured or left dead on the field of battle. In the great actions of the late Franco-German war the proportion of killed and wounded to men engaged was very nearly the same, being one-six in the battles of Worth and

The coal mining population—a class of the hardy sons of toil who have added much to the prosperity and glory of Midway—after long, unwilling idleness are again at work, busy, useful and contented, and the mine owners them selves are again at work, busy, useful and contented, and the mine owners of the selves are again shipping their coal with profit. The growing grain, too, is quite promising, and the flocks which feed upon the fat pastures of these Washington county hills are as fat as were the bulls of Bashan. West Virginia Presbytery. Ordination of Rev. S. H. Young

Report in Regard to the State of Religion. Buckhannon, May 7.

Editors Intelligencer:
Sunday at 3 o'clock was the hour appointed for the ordination of Rev. S. H.
Young. The town literally emptied itself, and the church was filled to its utmost capacity. The candidate for ordi-nation was formerly a resident of this section, who by his lovely character and eximplary life had won him a host of friends in this community. The fact of this being ordained at this place, which is near to his former home, and also that he will soon depart for Alaska as a mission-graphs charged with its own presentation speech. Dom Pedro will only have to turn the crank to set Mr. Roach talking to him in compilmentary terms and to locate the second of the second of the second of the friends in this community. The fact of his period at this place, which is near to his former home, and also that he will soon depart for Alaska as a mission-graphs charged with its own presentation sermon was preached by Rev. J. B. Reid, from 2nd Cor.4-3: "But if our flower than the second of the first place with the first place wit xemplary life had won him a host of turn the crank to set Mr. Roach talking to him in complimentary terms and to test the wonderful character of Edison's invention. His Imperial Majesty will find that this machine beats Munchausen's horn all hollow.

candidate, by the laying on of hands, and prayer, was set apart for the work of the ministry. Rev. Dr. Young, his father, then delivered the charge as follows:

"In addressing this young man permit me, without egotism, to paraphrase the language Apostolic: Loyal Young, a Minister of the Gospel, by the commandment of God our Saviour, and Lord Jesus Christ, which is our hope; unto Samuel Hall, my own son, in the faith and in the flesh; grace, mercy and peace from God, our Father, and Jesus Christ our Lord I thank God, whom I serve from my forfathers, with pure conscience, that without ceasing I have remembrance to thee in my prayers night and day; when I call to remembrance the unfeigned faith which dwelt first in they grandmother Lidius and thy mother Margaret; and I am persuaded that—in thee also, where fore I put thee in remembrance that thou the syling on of hands of Presbytery.

By the appointment of the Presbytery, of West Virginia, and in ther behalf, I give you a solemn charge. This is a to the syling on of hands of Presbytery, of West Virginia, and in their behalf, I give you a solemn charge. This is a to fine the same that thou the syling of the Father had but one Eternal Son, and he made him a minimal that we say in the syling that the office is one of great dignity and responsibility. By it the voices and words oil distinguished orators and singers are produced, and the phonograph may be sealed up with its living voices, to be unsealed a thousand years hence, and to utter to the myriads then living the words of the men now on earth. You are to be a prophet; to receive the message from the voice of God, and to communicate it again in its purity to your fellow men, and it may thus be transmitted to future generations through your instrumentality. Abel, being dead, yet speaketh. The work of the ministry is a work of great responsibility, whether it be peatoral or missionary work. You have felt called of God to engage in the latter—the missionary work; to build upon foundations of your own laying rather on other men's foundations.

At Grave-lotte the proportion was only one-eleventh and at Weissenberg one-twelfth. In some of the earlier battles of the present century, however, the losses were far heavier in proportion to the numbers engaged, amounting to one-third of the entire forces engaged at Salamannea, Borodino and Eylau, to one-fourth at Marengo and to one-fifth at Friedland.

Stall We Go to Monndsville for Our Health?

Somebody has been hunting up statistics in regard to the length of life in prison, and has come to the awful conclusion that, conficed within stone walls, a greater degree of health and longevity can be obtained than in any other condition. A person's chances of living as a prisoner are nearly double what they would be in a state of freedom. When the word; be ye instant in season and out of season." preceeded it in the more abundant success that has attended every department of Christian effort and of moral and accial reform. This is true not only throughout the country generally but especially within the bounds of our own Presbytery; and as reaching the churches and families belonging to our own several charges. In nearly all the churches in which there is a pastor or stated supplies, and in some of the vacant once, there has been a steady growth, and is found a healthy and encouraging state. To some of our congregations the presence of God and the outpouring of His anjirit have been given in a great One-half cash, balance in one year, with cet. JAMES L HAWLEY,

and is found a healthy and encouraging state. To some of our congregations the presence of God and the outpouring of His spirit have been given in a great measure. Times of refreshing come from the presence of the Lord. The Churches of Parkersburg, Calvary, Weston, Pairmont, Long Reach, Elizabeth, Mannington and Spencer report interesting revivals and large accessions to their membership. Altogether we have reason to be encouraged and the outlook is hopeful. Point Pleasant Church seems to be best with trouble, trials and tribulations, and asks for the prayers of the Presbytery and the directing hand of God. Trouble and schism have also entered into the Clarksburg Church. Sabbath Schools, popular and efficient, well officered and well taught, are kept open in the most of our churches throughout the year. Those being Presbyterian, the shorter catechism is very generally taught.

from the hand of God as far overbalancing the discouragements, we will look hopefully and prayerfully to the future, and will go forward to our work with the measure of ability God has given us. All of which is respectfully submitted.

GEO. M. FLEMING,
Chairman of Committee.
The hour for devotional exercises having arrived, the Presbytery spent the usual time in prayer and singing.
Rev. H. G. Blaney urged upon ministers and elders of the Presbytery the great importance and necessity of contributing to the various Boards of the Church, to nearly all of which the churches of this Presbytery is indebted for aid.

MONDAY, 1:30 P. M.—Rev. Mr. Howell, as candidate under this Pres., was examined in Natural, Mental, and Moral Philosophy, Lain, Greek, Hebrew, Theology, etc., which were sustained as parts of licensure.

MONDAY, 7:30 P. M.—Rev. W. W. King preached from Relevations 12, 1. "And there appeared a great woman in heaven; a woman clothed with the sun, and the moon under her feet, and upon her head a crown of twelve stars,"—The sermon was able and delivered with energy. Rev. Mr. Howell was granted license to preach the gospel of the Lord Jesus Christ, the Moderator. Rev. J. B. Reed propounding the usual questions.

A resolution of thanks to the officers of the church and community for their hospitality was adopted.

Closed with prayer by Rev. J. G. Hammer.

THE sale of Sarsaparillas for blood and liver medicines is almost entirely super-seded by the introduction of Dr. Pierce's Golden Medicial Discovery, which far sur-passes in efficiency these old-time-medi-cines.
